

How to activate your Personify Care digital patient account

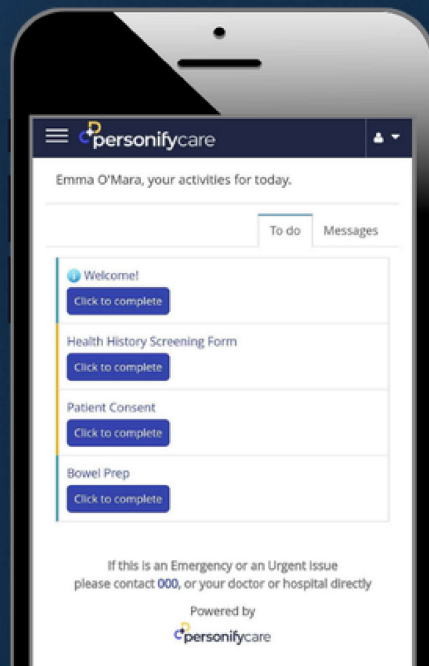

Evolution
HEALTHCARE

What is Personify Care?

A digital communication platform for patients and health care workers.

Personify Care is easy to use. You will get a reminder when new activities are ready to complete in your account's checklist.

Need some additional help? No worries, you can elect for a proxy to complete on your behalf.

Activate your account, 3 easy steps.

Step 1

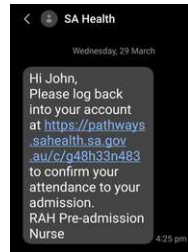

SCAN the QR code, or visit

<https://app.personifycare.com/register/EvolutionHCare-RH>

and enter your **mobile number** to get a **link** sent to your phone.

(The message
will look a little
like this.)

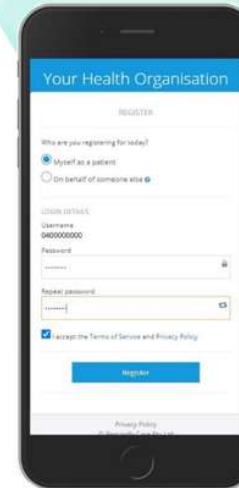

Step 2

If you are the patient,
select this option.

If you are registering on behalf of a
patient, select this instead.

Next, **create a password**
and select **Register**.

Step 3

Fill in your details (and the patient's if
you are registering for someone else),
and select **"I accept"** to allow Personify Care
to share your health information
with your healthcare provider.

You will now be taken
directly to your account.

(You will land on the
'To do' list screen.)

Access your Personify Care
account any time by visiting:

app.personifycare.com

Why is it useful?

Improves patient preparation and experience, and
reduces appointment cancellations.

Who can use it?

Everyone with access to a mobile device and internet
can use Personify Care pathways.
